

IJPBR was positively evaluated by Index Copernicus (IC)

Index Copernicus (IC) is an international retrieval system for medicine and biology sponsored by Medical Science International. It provides supplement for Medline and Institute of scientific information (ISI) and sets up the platform for scientific information collection, planning and promotion of periodicals, and improvement of international influence for endemic journals.

Indian Journal of Pharmaceutical and Biological Research (IJPBR) was positively evaluated in IC Journals Master List 2012, which resulted in score given **ICV 3.52 points**.(Index Copernicus Value).
